Ever finish up a fun activities with your kiddos and still have extra time before you go outside, have lunch, take a naps etc....? Well then VROOM is for you. This easy to use, FREE app allows you to enter the ages of your kiddos and then it supplies you with fun and engaging activities to spark brain building moments.

Example: ages 2-3, Laundry Sense: Give your children a chance to explore textures when you're putting away laundry. Before you fold, pass them to your child first and ask him/her how each feels. Is it soft, rough, thin, heavy? What else feels that way?

Science tells us that the more we engage with our children, the better they'll do later on in school and in life. With these VROOM activities, you have what it takes to be a brain builder! Head to the App Store, Google play app, apps for kindle fire page or www.joinvroom.org to download and get started.
