

Employer Child Care Survey Report

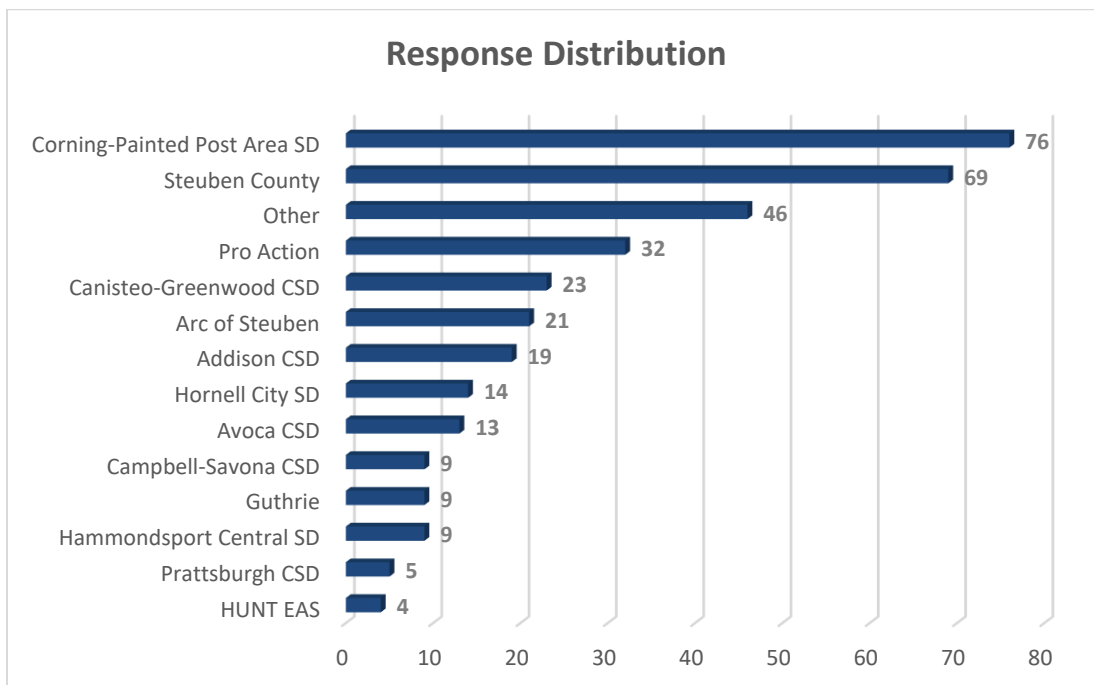

August 28, 2020

Pro Action’s Child Care Aware® of Steuben and Schuyler and Kids On Track Steuben conducted a survey to help understand the community’s needs for child care with schools re-opening in hybrid models in the wake of the Covid-19 pandemic. These programs are working with child care providers, youth programs and other community partners to try to expand child care and youth programs into additional spaces where they can serve school-aged children on virtual learning days.

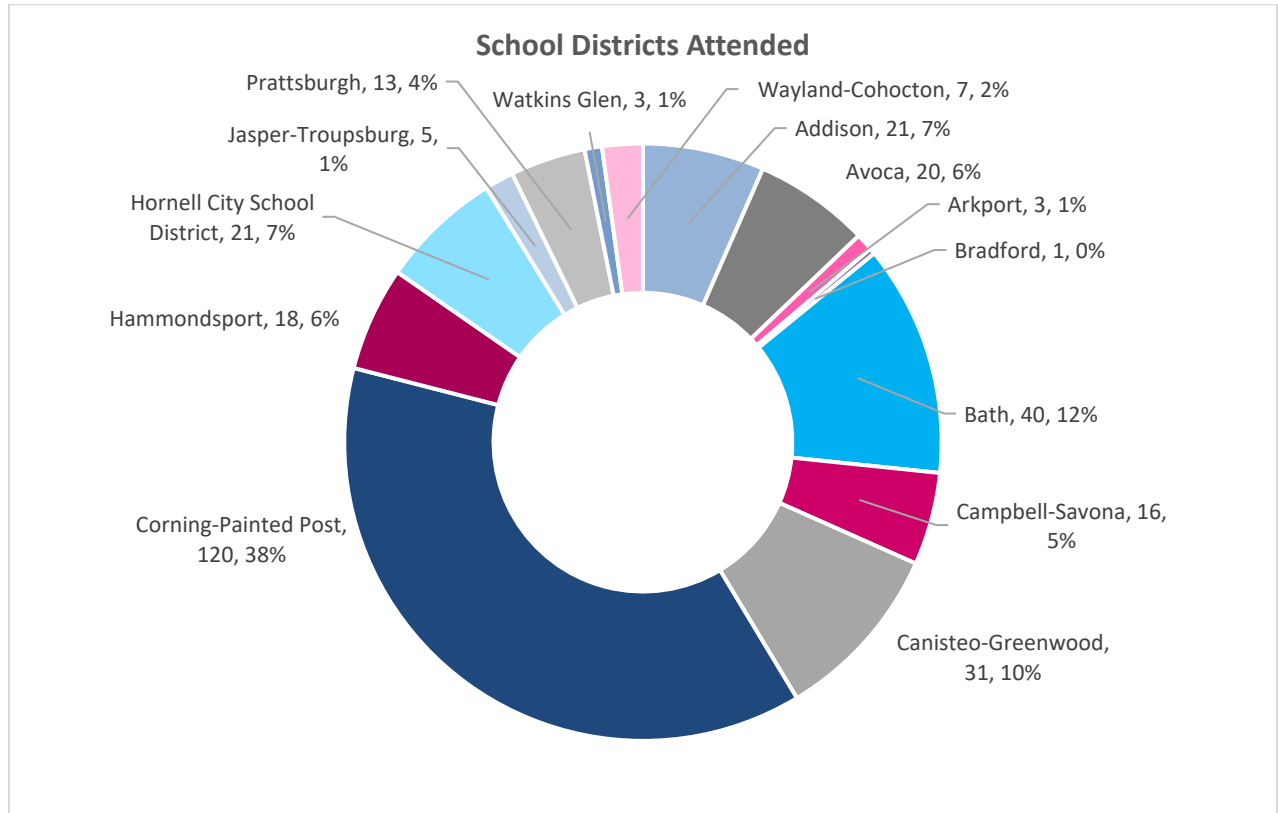

PLEASE NOTE: Anyone responding to this survey who asked for information will be contacted by Child Care Aware® of Steuben & Schuyler. In addition, anyone seeking information on child care options locally can call Child Care Aware at 607-776-2126, and ask for Michelle Smith.

Respondents: n=352

Respondent Distribution by Employer

Distribution By School Districts Where Children Attend School

There were 29 "Other," responses which included schools in neighboring counties, and private schools.

Frequency of Ages of Children Who Were Subjects of Responses
