

Pro Action Child Care Council

Steuben & Schuyler's most trusted child care resource.

2022 Steuben County Child Care Report

Our Mission:

Pro Action Child Care Council empowers the development of high-quality environments for children, ensuring families have access to affordable and secure child care.

The 2022 Steuben County Child Care Report is funded by the Office of Children and Family Services and the Steuben County Department of Social Services.

Dear Reader:

For as long as I can remember, child care advocates have been working tirelessly to expand access to high quality child care, and to make it more affordable for families. During 2022, unprecedented Federal and New York State investments in child care programs and in the Child Care Fee Assistance Program (formerly Subsidy) brought us closer to the aspiration of accessible, affordable care.

- For starters, as 2021 came to a close, 113 existing child care providers in Steuben and Schuyler Counties applied for and were awarded more than \$4.5 Million in Child Care Stabilization grant dollars. In addition, NYS instituted 12-month eligibility for families receiving Child Care Assistance Program (CCAP). With this change, families no longer face the disappointment and stress of losing their child care assistance in less than a year because of receiving a small raise that pushes them slightly over-income for eligibility. Pro Action Child Care Council had a role in facilitating both of these changes with local providers.
- By June of 2022, two State initiatives helped bring even more vital funding to child care providers. One new Family Child Care provider, one Group Family provider, one School Aged Program and one Day Care Center in our area were awarded Child Care Desert Grants, which provided funding to support opening a new business and sustaining it for two years. A second round of Desert Grant funding for existing child care providers saw one School Aged Program in our community receive awards for two expansion sites. Many, many providers saw their incomes go up as they raised fees to come in line with new market rates to reimburse programs for care provided to children receiving the Child Care Assistance Program. In 2022, providers as a group received 26.1% more in payments from CCAP than in 2021.
- As of August 1, 2022, the eligibility thresholds for families to receive CCAP for their children was raised to 300% of the Federal Poverty Level (FPL), from 200% of FPL. This change expands the program to serve many more working families. As a result of this change, and in partnership with Steuben County Department of Social Services, Pro Action enrolled and provided Child Care Assistance to 19% more children and 33% more families than in 2021.

The year 2022 will go down as a turning point for child care. It was a year when policy makers recognized the value of child care, and invested at levels to expand access to it, and to better compensate those who provide it. Our challenge going forward is to sustain and grow that investment long-term.

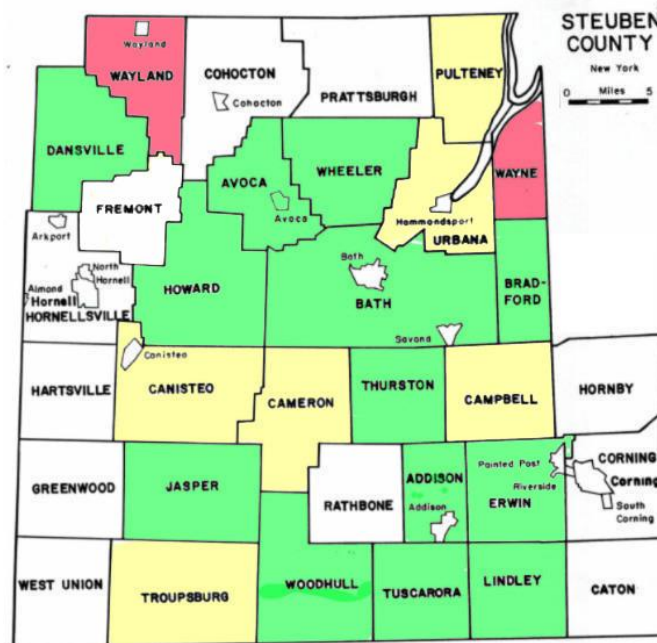

Margie Lawlor, Associate Director
Resilient Children & Families Community Based Services

Introduction

Pro Action Child Care Council is pleased to present this report detailing the state of child care in Steuben County. Due to the constantly changing environment, provider data for this report is not a yearlong cumulative total; rather it is a snapshot from the month of September 2022. For example, data presented regarding the number of child care programs and capacity for each changes on a regular basis. This is caused, in part, by opening and closing of programs, as well as business decisions made by the owners of the programs for various reasons.

Steuben County Data

Square Miles

- Square miles = 1,390.56 which is mainly rural area, spread out over three areas of population density in Corning, Hornell, and the County seat, Bath.

Population/Households:

- Total population est. = 95,843
- The total number of estimated children 14 years old and under = 16,887

Levels of Education:

- Population 25 years and older no high school diploma = 5.9%
- Population 25 years and older high school graduate or equivalent = 35.5%
- Population 25 years and older some college, no degree = 16.6%
- Population 25 years and older associates Degree = 14.5%
- Population 25 years and older bachelor’s degree = 12.5%
- Population 25 years and older graduate degree or professional degree= 12.1%

Child Care Types and Definitions

Registered/Licensed Programs as defined by the Social Services Law 390

1. (c) "Child day care center" shall mean any program or facility caring for children for more than three hours per day per child in which child day care is provided by a child day care provider except those programs operating as a group family day care home as such term is defined in paragraph (d) of this subdivision, a family day care home, as such term is defined in paragraph (e) of this subdivision, and a school-age child care program, as such term is defined in paragraph (f) of this subdivision.

(d) "Group family day care home" shall mean a program caring for children for more than three hours per day per child in which child day care is provided in a family home for seven to twelve children of all ages, except for those programs operating as a family day care home, as such term is defined in paragraph (e) of this subdivision, which care for seven or eight children. A group family day care provider may provide child day care services to four additional children if such additional children are of school-age and such children receive services only before or after the period such children are ordinarily in school or during school lunch periods, or school holidays, or during those periods of the year in which school is not in session. There shall be one caregiver for every two children under two years of age in the group family home. A group family day care home must have at least one assistant to the operator present when child day care is being provided to seven or more children when none of the children are school-age, or nine or more children when at least two of the children are school-age and such children receive services only before or after the period such children are ordinarily in school or during school lunch periods, or school holidays, or during those periods of the year in which school is not in session. This assistant shall be selected by the group family day care operator and shall meet the qualifications established for such position by the regulations of the Office of Children and Family Services (OCFS).

(e) "Family day care home" shall mean a program caring for children for more than three hours per day per child in which child day care is provided in a family home for three to six children. There shall be one caregiver for every two children under two years of age in the family day care home. A family day care provider may, however, care for seven or eight children at any one time if no more than six of the children are less than school-age and the school-age children receive care primarily before or after the period such children are ordinarily in school, during school lunch periods, on school holidays, or during those periods of the year in which school is not in session in accordance with the regulations of the office of children and family services and the office inspects such home to determine whether the provider can care adequately for seven or eight children.

(f) "School-age child care" shall mean a program caring for more than six school-age children who are under thirteen years of age or who are incapable of caring for themselves. Such programs shall be in operation consistent with the local school calendar. School-age child care programs shall offer care during the school year to an enrolled group of children at a permanent site before or after the period children enrolled in such program are ordinarily in school or during school lunch periods and may also provide such care on school holidays and those periods of the year in which school is not in session.

Head Start is a federally funded, comprehensive program for 3-5 year-old children from income-eligible families. All services are provided at no cost to the family. All Head Start programs operate in classrooms licensed by the Office of Children and Family Services. In Steuben County, Head Start is facilitated through Pro Action and operates on a school calendar schedule with children in attendance five days per week for the same hours as the local school district daily schedule. There is no fee to attend.

Pre-Kindergarten State funding is available through the New York State Department of Education for pre-kindergarten programs which are known as Universal Pre-Kindergarten (UPK). All Steuben County schools receive funding for UPK. Many Steuben County school districts contract with community-based organizations, such as Head Start, Pathways, or child care centers for the provision of UPK services. Additionally, some school districts directly operate UPK classrooms. The UPK classrooms operate 5 days per week and follow school district calendars. Children attending UPK must be 4, in some cases, years old. Children must attend the UPK program located in the school district where the child resides. There is no fee to attend.

Legally-Exempt (L.E.) Care

Legally-Exempt Family Child Care is child care provided outside the child's own home in a residence and is not regulated but must meet all state and local health and safety requirements. This caregiver is chosen and monitored by the child's parent/guardian. This type of care includes relative care, which by Federal definition is a grandparent, great-grandparent, aunt/uncle, and sibling (if living in a separate residence), and non-relative care for up to 2 children. The maximum capacity for Legally-Exempt care is 8 children, including the provider's own children.

Legally-Exempt In-Home Child Care is child care provided in the child's own home by a caregiver who is chosen and monitored by the child's parent/guardian and is not regulated but must meet all State and local health and safety requirements. This type of care requires the child's parent/guardian to provide the caregiver with all employee benefits required by the state and federal law and pay the caregiver at least minimum wage.

Legally-Exempt Group Child Care Settings

Nursery Schools/ Pre-School Programs serve children ages 3-5 years old in a variety of settings including: public and private schools, churches, community centers and home residences. Programs meet anywhere from one to five days per week for less than three hours per session and often follow the school year calendar.

Camp Programs are day or overnight recreational programs that operate when school is not in session. Camp programs are regulated to some degree by New York State Department of Health.

Legally-Exempt programs are encouraged to accept child care subsidies. If serving at least one child whose care is subsidized by the county the program must adhere to Social Services Law 415; Legally Exempt Health and Safety Requirements and Steuben County's additional standards.

Illegal Programs

The Social Services Law 390 states that an individual may not watch more than 2 children in the individual's home, for more than 3 hours, if the children are not related to them in the 3rd degree of consanguinity, without being registered or licensed.

In addition, if an unregistered program is operating and meets all the criteria listed below, it is considered a School-age Child Care Program (SACC) and must be registered in the State of New York with the Office of Children and Family Services. If it fails to meet even one of the criteria below, it is not a SACC program. These criteria are:

- a. The program provides care on a regular scheduled basis.
- b. The program serves an enrolled group of children.
- c. The program provides care to seven or more children under 13 years of age.
- d. The program only serves school-age children. School-age children includes: (1) those enrolled in school, including kindergarten or a higher grade; and (2) those at least six years of age. A program caring for younger children may be required to be licensed with OCFS as a child day care center. (See policy 16-2: *Enrollment of Prekindergarten Child in School-Age Child Care Programs*).
- e. The program is located at a non-residence.
- f. The program operates only during non-school hours (i.e., before and/or after school, during school lunch periods, on school holidays, and/or during summer vacations).
- g. The program operates for more than one purpose.

To view the entire Policy Statement 16-1 What Constitutes a School-age Child Care Program please visit the Office of Children and Family Services website: www.ocfs.ny.gov

Child Care Demand

Parent Requests Per Child

A review of the requests Pro Action Child Care Council received in the last year, reveals some interesting statistics regarding local demand for child care. The Empire State Child Care Match (referral) database is only for regulated providers and does not include legally-exempt provider requests. *Note: This data does not include consultations for subsidy. Parents seeking subsidy may not want referrals, as they may already have child care secured.*

Referrals by Provider Type: (919 requests)

Numbers indicate what type of care parents are seeking for each child.

**Note: Figures below reflect multiple preferences selected by parents.*

Day Care Center	290
Family Child Care	285
Group Family Child Care	272
School-age Child Care	72

Requests by Age of Child: (1,025 requests)

Numbers indicate the ages of children for whom parents are seeking care.

Infants	417
Toddlers	114
Pre-school	169
School-age	325

Schedule Type Requests: (298 requests)

Numbers indicate the schedule for which parents need care per child.

Full-time	251
Part-time	42
Both	5

Extra Care Requests: (79 requests)

Numbers indicate the times for which parents need care per child.

**Note: Figures below reflect multiple preferences selected by parents.*

Drop In	1
Before School	34
After School	44

Special Needs: (16 requests)

Numbers indicate what type of special needs a child might have.

**Note: Figures below reflect multiple preferences selected by parents.*

ADHD	5
Autism	7
Developmental Disability	3
Educational Disability	1

Request Preference for Medical Administration: (3 requests)

Numbers indicate whether the parent would like a provider that is approved to administer medications.

NYS Approved to Administer Medication	3
---------------------------------------	---

Additional Care Services: (47 requests)

Numbers indicate the schedule for which parents need care per child.

**Note: Figures below reflect multiple preferences selected by parents.*

Early/Day Morning	7
Evening	9
Extended Hours	6
Flexible Hours	7
Late Date/Afternoon	8
Snow Days	3
Weekend	5
Overnight	2

Location of Care: (326 child requests)

Numbers indicate the location for which parents needed care per child.

**Note: Figures below reflect the cities where parents are living and looking for care near home. Parents living in cities outside of Steuben County, but using our services, are not reflected in the numbers below.*

Addison	10	Hornell	52
Arkport	4	Jasper	1
Avoca	8	Kanona	1
Bath	71	Lindley	2
Beaver Dams	5	Painted Post	30
Cameron	4	Prattsburgh	4
Campbell	15	Pulteney	2
Canisteo	8	Savona	9
Cohocton	5	Wayland	6
Corning	82	Woodhull	2
Hammondsport	5		

Based on the parent referral requests, the information below is a summary of the data collected:

- a preference for daycare center care
- a high demand for infant care
- a high need for full-time care
- a high need for after-school care
- a demand for care givers that can meet the needs of children with autism
- a continued demand for evening and flexible hours for child care (non-traditional hours)
- a high demand for care in these locations: Corning, Painted Post, Bath and Hornell

Child Care Time and Attendance

The following information was collected from the Child Care Time and Attendance system and indicates the type of care being used by families receiving subsidy:

Family Day Care (FDC)	22%
Group Family Day Care (GFDC)	16%
Day Care Center (DCC)	12%
School-age (SACC)	4%
Legally- exempt (LE)	46%

Child Care Supply

Current Child Care Slots, by Type

The following chart reflects the maximum capacity for regulated child care programs.

Family Day Care and Group Family Day Care

Type of Care (Steuben County)	# of Providers	Total Slots
Family Day Care	50	400
Group Family Day Care	20	320

Source: Child Care Facility System (CCFS) as of September 2022

Disclaimer: A typical Family Day Care can care for a total of 8 children depending on the ages of the children in care. Refer to page 5, Social Services Law 390 1(e) for more information on Child Care Types and definitions regarding capacity.

Note: While typically registered Family Day Care can care for up to 8 children, there may be cases where OCFS has deemed a lower capacity because of space issues.

Disclaimer: A typical Group Family Day Care can care for a total of 16 children depending on the ages of the children in care. Refer to page 5, Social Services Law 390 1(d) for more information on Child Care Types and definitions regarding capacity.

Note: While typically licensed Group Family Day Care can care for up to 16 children, there may be cases where OCFS has deemed a lower capacity because of space issues.

Day Care Center and School-aged Child Care

Though some Head Start programs are licensed, Head Start numbers are not included in these numbers. Please see Head Start data on page 17.

Child Care Slots Offered, by Type and Geography

Below is information on the availability of child care in different regions of Steuben County, by type of care. It presents the number of slots provided in these different types of regulated care, categorized by the age of the child. The information was collected as of September 2022 and is subject to change. Child care providers of all types below have the option of enrolling any number of children into their services as long as they do not exceed their maximum capacity. The following chart reflects regulated providers’ total capacity of slots. Head Start and other Pre-Kindergarten figures are included in the chart directly following this one.

Child Care Resources

Child Care Resource and Referral

Child Care Resource and Referral Agencies all over America, Canada and Europe assist parents in finding child care that meets their family's unique and complex needs. Referral agencies, such as Pro Action Child Care Council, help parents with their search for child care by:

- Providing consumer education on a variety of child care options and informing parents about what constitutes quality care, enabling parents to make the best child care choice;
- Customizing referrals from a continually updated provider database;
- Working with community stakeholders and businesses to develop more care options to meet traditional and non-traditional demands for child care in every community;
- Providing counseling and resource materials that enable parents to raise healthy children and maintain positive child care relationships, and
- Directly linking parents to child care assistance which helps eligible families pay child care fees when funds are available.

Child Care Assistance Program (CCAP)

The year 2022 took on many changes in the Child Care Assistance Program (formerly known as Child Care Subsidy) as a result of the State Fiscal Year 2022-2023 Enacted Budget. These allocations included both New York State (NYS) through the Federal Child Care Development Block Grant and COVID-19 pandemic funding to support the implementation of: reduction of income-based family share; 12-month eligibility, expansion of initial eligibility levels up to 300% of the state income standard (SIS), but not in excess of 85% state median income; and payment for a minimum of 24 absences per child per provider per year. This budget also included funding to support subsidized child care with an increase in payment to child care providers to the 80th percentile of market rates. Pro Action Child Care Council is proud to report that its Child Care Assistance team, in partnership with Steuben County Department of Social Services, implemented these changes smoothly as they notified parents and providers of changes, established new rate agreements with all providers, conducted outreach to newly eligible parents, and completed 12-month re-certifications for the first time.

The Child Care Assistance Program offers families child care fee assistance based on the above mentioned eligibility levels. In Steuben County, reimbursement is paid directly to the child care providers on the 27th of each month. Families receiving child care assistance are required to pay a portion of their child care, which is considered a parent fee. Steuben County's income guidelines are at 300% and parent fee multiplier is 1%. Child Care Assistance pays child care fees primarily for children 12 and under.

According to the Local Commissioners Memorandum effective 4/1/2022-3/31/2023 the Child Care Assistance allocation for Steuben County is **\$4,129,452.50**. In 2022, these funds paid portions of child care for **488** children on behalf of **319** families. In 2022, the Child Care Assistance Program was able to serve nearly 19% more children and nearly 33% more families than it served in 2021 thanks to

regulatory and eligibility changes. Child Care Assistance reimbursement payments were paid on average to **59** regulated and **33** legally exempt providers.

The total spent for Child Care Services for care provided in the year 2022, was **\$2,638,075.41**, (includes TANF, CCDBG, transitional, special cases, Title XX and administrative). This represents a 26.1% increase over the amount spent in 2021, meaning more child care assistance dollars went to work for families in our county. These figures are taken from the Child Care Time and Attendance (CCTA) system and primarily covers the payments to child care providers.

Total spending for calendar year 2022

CCDBG and Title XX: \$2,606,855.31

TANF and Transitional: \$31,220.10

A report from OCFS, shows that as of January 2, 2023, Steuben County spent 44% of their allocation for Child Care Assistance Block Grant for Federal Fiscal Year 2023. There were only 6 counties in NYS that spent more. Administrative funds pay for the contract for Pro Action Child Care Council to operate the program, with one staff person located on-site at DSS. Functions include program promotion, processing and making monthly payments to regulated and legally exempt providers for eligible children, facilitated enrollment for parents, assistance with determinations, applications and re-certifications, fraud detection and referrals to the fraud unit, issuance of 1099s, union dues calculations and payment to CSEA/VOICE and provider training. Final approvals of all child care assistance (eligibility/payment) are made in the Department in our Social Services Unit.

This past year, parents paid a total of **\$106,269.58** in parent fees, offsetting some of the child care assistance costs. Payments, deducted from provider reimbursements, to CSEA/VOICE totaled **\$5,920.90**.

Average Weekly Full-time Fees for Child Care in Steuben County

The figures below are the average weekly rates parents pay for child care in Steuben County.

Modality	Ages: 6 weeks - 23 mos.	Ages: 24 - 35 mos.	Ages: 3 – 4 yrs.	Ages: 5 – 12 yrs.
Family Day Care	\$187	\$181	\$177	\$168
Group Family Day Care	\$200	\$192	\$190	\$175
Child Day Care Center	\$229	\$220	\$206	\$184
School-age Child Care	NA	NA	NA	\$123

Child Care Program Quality

“High-quality early care and education requires secure and nurturing relationships with adults who know how to support children’s development and learning. Children who have these relationships with adults tend to be more self-confident, better at interacting with others, and more effective learners. Neither nurturing children nor teaching them is enough by itself for optimal learning. The two work in tandem.” (National Academy of Sciences, 2020)

These facts have been proven in studies over the years and continue to ring true. Quality early education is the foundation of children’s future success.

At Pro Action Child Care Council, we consistently focus on providing professional development opportunities that focus on the whole child. We expose child care programs to the tools and education to meet the diverse needs of each child while preparing them to be on track for school.

Professional Development

All registered and licensed child care programs are required to meet and remain in compliance with the New York State Child Day Care Regulations that requires all staff to take 30 hours of training every two years. The 10 topics include:

1. Principles of child development
2. Nutrition and health needs of infants and children
3. Child day care program development
4. Safety and security procedures
5. Business record and maintenance management
6. Child abuse and maltreatment identification and prevention
7. Statutes and regulations pertaining to child day care
8. Statutes and regulations pertaining to child abuse and maltreatment
9. Education and information on the identification, diagnosis and prevention of shaken baby syndrome/abusive head trauma (SACC programs are excluded from this training)
10. Adverse childhood experiences, focused on understanding trauma and on nurturing resiliency

Steuben County providers reported participation as follows, services in 2022:

27	Child Development Associate coursework assistance/participation
9	Program assessment
118	Onsite intensive technical assistance with new knowledge gained and implementation of change
381	Attendees at professional development opportunities
118	Professional development plan
89	Professional development opportunities offered
148	Quality Improvement Plan development
4	Achieved or renewed the Child Development Associate Credential

Effective Workforce Development

The New York State Training and Technical Assistance Professional Credential provides a standard to assure the quality of Early Learning Trainers. Additionally, it represents a level of professional achievement for trainers. The title of “trainer” is the field-accepted term used to indicate a person who educates, instructs, coaches, and/or mentors other adults in knowledge and quality practices for professional development.

The T-TAP Credential formally recognizes the value and specialized knowledge, skills and attitudes necessary for those who provide community-based training to early care and education programs and providers. The trainer’s education, experience and competencies are categorized by four knowledge base areas including: knowledge of content, instructional design and development, presentation skills, and professionalism. These are reviewed and verified by New York Association for the Education of Young Children (NYAEYC). If an individual meets all criteria, the credential is awarded and requires ongoing professional development to meet the renewal requirement. In 2022, Pro Action Child Care Council had 2 credentialed trainers and 3 verified trainers on staff. For more information on the credentialing process, visit <http://nyaeyc.org/ttap-credential/> or The Aspire Registry, New York State’s Registry for early childhood and school-age professionals at <https://nyworksforchildren.org/professional-growth/pd-providers/>.

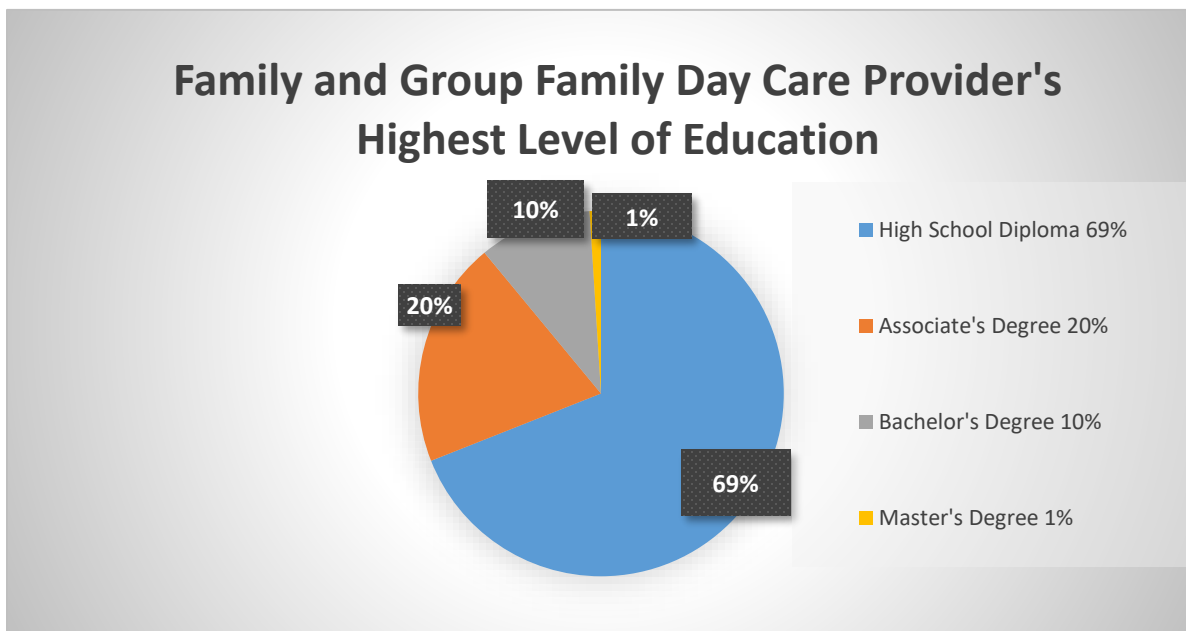

NYAEYC coaching credential is a designation one can achieve in the field of Early Care and Learning. This designation is for individuals who provide coaching, which is defined as a relationship-based process led by an expert with specialized adult learning knowledge and skills, who often serves in a different professional role than the recipient(s). PACCC had 2 credentialed coaches in 2022 that served as additional resources for quality programming (<http://nyaeyc.org/coach/>).

In 2022, child care providers invested in their professional development by utilizing the SUNY Early Childhood Education and Training Program (ECETP) Educational Incentive Program (EIP) and CSEA/VOICE to assist with their associated cost of enrollment and attendance. Both of these programs require trainers to be credentialed, verified, or employed by an approved training agency that has an active agreement with their organization. Due to COVID-19, virtual instruction continued to be approved to satisfy training requirements and the above funding sources continued to provide financial assistance to participants.

QUALITYstarsNY

QUALITYstarsNY (QSNY) is New York State’s 5-star Quality Rating Improvement System for child care programs. Currently, this is a voluntary program designed to provide supports to programs to help them achieve a 5-star rating, as well as communicate quality options to the families exploring enriching environments. QSNY has been rolled out in various areas of NYS. In 2017, Steuben County child care programs were provided the opportunity to participate in the Quality Rating Improvement System. Through recruitment efforts by the local QSNY Quality Improvement Specialist and Pro Action Child Care Council, **34** Steuben County child care programs/classrooms were recruited and/or continued to be active participants in 2022. Participation in QSNY is a requirement for recipients of NYS Child Care Desert grants. This is a substantial increase in participation. If you would like to learn

more about QSNY, visit their webpage at <http://qualitystarsny.org/> or contact PACCC at 607-776-2125 ext. 7107.

Early Literacy Connections©

Early Literacy Connections© is a professionally developed early literacy curriculum that is utilized in family and child care center settings. It provides full lesson plans, teacher tips, plus accompanying materials and cross-disciplinary activities. Cross-disciplinary activities allow young children to explore subject content in science, math and social studies through stories, songs and play. Because *Early Literacy Connections©* was developed by a Head Start curriculum specialist aligned with Head Start Early Learning Outcomes Framework, the curriculum allows providers to deliver an early literacy learning experience to the children in their care that is on par with what is provided in our local Head Start programs and meets New York State Early Learning Guidelines. *Early Literacy Connections©*, coupled with Pearson's Developmental Indicators for the Assessment of Learning (DIAL™-4) and Ages and Stages Questionnaire (ASQ®-3), enhances the teacher's capability, ensuring the children in their care enter school ready to learn.

United Way funding supported the implementation of this project in family/group family child care, center-based programs and preschool programs. The comprehensive services included the implementation of the full Clifford and Harms Environmental Rating Scales, the administration of DIAL™-4 child outcome assessment with children ages 2 to 5 years of age, the administration of Ages and Stages Questionnaire 3rd Ed (ASQ®-3) with infants and toddlers and training on the *Early Literacy Connections©* curriculum. The literacy specialist conducted check-ins and provided ongoing coaching and mentoring to all trained providers who were using the curriculum. The Specialist also utilized the appropriate domain of the Clifford and Harms Environmental Rating Scale to measure pre and post program scores to identify the changes that occurred and validated the level of competency. 2022

was the fourth year for the Summer Learning Loss prevention program that extends on the literacy curriculum. Eight programs attended the in-person, fun-filled event that provided them with strategies, books, supplies, and parent/child activities that assisted with keeping children on track with literacy skills through the summer months.

In Steuben County, there were:

- 9 programs/classrooms trained in the Early Literacy Connections© curriculum
- 27 coaching/mentoring visits were conducted to support programs with the use of ELC©
- 16 programs/classrooms were trained on how to use DIAL-4® and ASQ-3 as screening tools
- 226 children, ages 2 months-5 years of age, were served in these programs

During 2022, special story time presentations were conducted to provide modeling of quality literacy based learning activities.

Infant and Toddler Services

Pro Action Child Care Council, is a member of The Office of Children and Family Services Region II Infant and Toddler Network. The network provides support services to child care programs based on the Ten Components of Quality Infant Toddler Care through Florida State University, WestEd’s Program for Infant and Toddler Care (PITC), Pyramid Model and PACCC *Early Literacy Connections©* curriculum.

PACCC continued to provide Infant and Toddler Mental Health Consultant services through a state and regionally managed project. PACCC Consultant engaged in a variety of training experience to ensure they had professional tools to assist programs in providing an environment that supports positive mental health strategies for all children present. Two child care center programs and one Early Head Start classroom utilized the services of the mental health consultant to support staff with implementing programming that met the identified needs of individual children.

Steuben County providers reported participation in infant and toddler specialized services in 2022. (may represent participation in multiple programs)

133 Attendees	Participated in Specialized Services in the following topic areas: <ul style="list-style-type: none"> • Child Development Associate (CDA) • Learning Through Play • Early Literacy Connections© • Adverse Childhood Experience • Foundations of Health Sexual Development • Program for Infant and Toddler Care (PITC) • Baby Doll Circle Time® • Pyramid Model • Anti-bias classroom environments • Infant and Toddler program planning • Caring Spaces • Ages and Stages

Child Care Health Consultant Services

Pro Action Child Care Council employs a Child Care Health Consultant (CCHC) that is a NYS Registered Professional Nurse. The CCHC's basic function is to prevent harm and promote optimal health in child care programs, in compliance with all NYS child care regulations. The health consultant works with child caregivers to identify, implement, and evaluate strategies to achieve high quality childcare. In addition, the health care consultant establishes basic health and safety operational guidelines and plans for the child care program and provider; and serves in a liaison capacity to other health professionals and community organizations.

Health Consultant Services include the following:

- Medication Administration Training (MAT). The MAT course is a skill-based training to teach providers how to administer medications safely in their programs. The course is 8 hours long (with a skills demonstration) and gives an overview of medication effects and ways to give medication safely for both over-the-counter and prescription medications. Providers are taught how to handle, store and safely dispose of medications. Instruction also includes how to obtain proper consent and what the requirements are for preparation and administration of medications. Emergency care and special situations like asthma, seizures and severe allergic reactions are also covered in the course.
- Assist programs in complying with regulations pertaining to child health and the administration of medications.
- Regulatory requirements necessary for the administration of inhalers, nebulizers and emergency epinephrine auto-injectors (Epi-pens) by **non-MAT** approved providers.
- Trainings on the care and medications of children with specific health needs, such as seizure care, asthma, diabetes, g-tubes, etc.
- Ensure a system for communication among the child care provider, parent, and primary health care provider and consult when health issues arise.
- Perform on-site assessments of the child care environment and/or program operations.

- Assist child care providers in developing health related policy statements and an annual plan for the child care program (e.g., management of infectious diseases, fevers, and use of medications, and exclusion policies).
- Help child care providers obtain, understand, and use information about the health status of individual children and staff.
- Educate child care providers about child development, mental and physical health, safety, nutrition, and oral health issues.
- Link staff, families, and children with community health resources.
- Help identify and implement improvement plans.
- Educate and collaborate with licensing staff and policy makers to improve regulations, inspections, resources, and policies that promote safe and healthy child care.
- Phone and/or email consultation for all programs on matters related to health and wellness.
- Informal and/or formal training on topics like immunizations and infection control.
- Resource for other CCHC's (and their programs) who may or may not be employed by a CCR&R in order to help promote safety and wellness in the child care setting.

In 2022, the Child Care Health Consultant provided the following services:

- 5 Initial Health Care Plan Consultations for child care programs

Total number of MAT approved programs or sites that utilize a Health Care Consultant for additional support to ensure health and safety for infants and toddlers in 2022:

- 4 Group Family Day Care Programs
- 4 Family Day Care Programs
- 6 School Age Care Programs
- 9 Child Day Care Centers
- 11 Head Start Programs

Children's Nutrition Services

Eat Well Play Hard in Child Care Settings

Pro Action Child Care Council was awarded the Eat Well Play Hard in Child Care Settings grant for an eighth year. Through this grant, a Registered Dietitian addresses the challenge of childhood obesity in the counties of Steuben, Schuyler, Allegany, Chemung, Tompkins, Yates, Seneca and Ontario. Refer to the graph below for the specific data for childhood obesity rates in the counties served. The childhood obesity rates of the eight counties served under this project as of the 2017-2019 data reports are still the most updated data sets available.

County	Percentage of Overweight or Obese Elementary Students (reported to the NYS Health Connector)
Allegany	13.2
Ontario	14.4
Tompkins	15.7
Schuyler	21.9
Steuben	17.8
Chemung	18.7
Seneca	19.9
Yates	15.9
Averages	
NY State average (excluding NYC)	16.2
8-county average	17.2

Source: <https://nyshc.health.ny.gov/web/nyapd/student-weight-data-explorer>

Eat Well Play Hard was developed to help prevent childhood obesity and reduce long-term risks for chronic disease through the promotion of targeted dietary practices and increased physical activity. Poor nutrition and inadequate physical activity are the main causes of obesity, which is an epidemic in the United States. Being active builds healthy muscles, strengthens bones and helps maintain a healthy weight. It also reduces the risk of diabetes, heart attack and high blood pressure.

Lesson plans to reinforce the Eat Well Play Hard objectives include the following:

- Increase developmentally appropriate physical activity
- Decrease exposure to television and recreational screen time
- Increase consumption of vegetables and fruits
- Increase consumption of low-fat or fat-free milk for children over age 2
- Increase the initiation and duration of exclusive breastfeeding

Most restrictions were lifted for in-person services with EWPH in 2022. DOH left the decision to the program receiving services whether they wanted in person or virtual service. Accommodations were

made as necessary. Several sites were still hesitant with allowing any outside non-essential visitors which did lead to reduced participation. In addition, the EWPH program came to an end in September of 2022.

In 2022:

- Programming was conducted with 6 classrooms: 2 in Steuben, 2 in Schuyler and 2 in Chemung
- 138 students were exposed to the nutrition education programming
- 28 staff were trained on sustainability of the program

This program is a 16-week center-wide intervention that includes lessons for children, parents and staff, as well as environmental changes that support healthy lifestyle practices. Objectives of the EWPH Champion program include:

- Adding nutrition and physical activity lessons as a part of a child's daily routine
- Nutrition, physical activity, reduced screen time, Supplemental Nutrition Assistance Program (SNAP), and cost saving education messages are communicated to parents
- Child care center menus increase the number of times fresh fruit and vegetables and low fat dairy are offered at snack time
- Child care centers create nutrition and physical activity policies and communicate policies to parents/families
- Encouraging family style dining

Farm to Preschool (F2P)

Pro Action Child Care Council completed its third year of the Farm to Preschool Program. This program connected preschool children, their parents and caregivers with local farmers and their fresh produce. The program is designed to address the obstacles and barriers that are related to poor nutrition and allow access to locally grown fresh produce. The Farm to Preschool Coordinator addresses these obstacles by engaging children, parents and staff in seed-to-table education, food demonstrations, and the establishment of farm stands.

Phase One of the F2P program was implemented during the months of January through June. The F2P Coordinator works in classroom settings and delivers a curriculum that teaches children about different fruits and vegetables, how to make different recipes using those fruits and vegetables, and how to grow them. This phase includes an introduction to classroom container gardens that the children actively plant and harvest. The curriculum activities engage the child care program staff with facilitating behavior change related to increased consumption of fruits and vegetables.

Within that program, the following individuals participated:

- 54 children
- 18 Staff
- 12 parents

The second phase of the F2P occurs during the months of June through September. Phase Two includes the establishment of the farm stands at the participating centers. The establishment of the farm stands is intentional to make the accessibility convenient for the families. In addition, this gives

the children a chance to interact with the farmer and meet the individual who grew the produce they sample. The farmer typically provides fresh produce at a lower price to families who do not have the time to buy, or could not afford to buy at the store. The farmers accept multiple methods of payments for the produce, such as: cash, credit/debit, EBT, Fresh Connect checks, FMNP checks, Senior FMNP checks and WIC fruit and vegetable benefits.

Child and Adult Care Food Program (CACFP)

The Child and Adult Care Food Program (CACFP) is a federally funded program that provides child care providers a meal reimbursement for healthy meals and snacks served to children. Since CACFP participants' nutritional needs are supported on a daily basis, the program plays a vital role in improving the quality of child care and making it more affordable for families. Participation is open to all licensed and registered child care programs, as well as enrolled legally-exempt FCC programs who provide child care in their home.

In 2022, there were an average of **51** participating programs: **49** were regulated child care and **2** were legally-exempt programs. These programs provided CACFP approved meals and snacks to **807** children in Steuben County. Child care centers and school-age child care (SACC) programs are sponsored directly through the NYS Department of Health.

Registration and Resource Development

Development of New Programs

The Registration and Resource Development Department is responsible for building the supply of child care providers in Steuben County. When someone expresses the desire to become a registered family day care provider or to open a school-age child care program, technical support is offered to assist in this process. Once a program is registered, continued support is given. Inspections are conducted to assist providers in maintaining compliance with the New York State Child Day Care Regulations.

In addition, we act as a consultant for persons wanting to develop centers and group family day care homes that are licensed by the Office of Children & Family Services through the Rochester Regional Office.

Complaints

The Registration Department is also responsible for complaints on registered programs. When a complaint is made, a Registrar investigates the program to determine if they are in conformity with the regulations. If the program is considered out of compliance, we assist them in making the necessary changes to bring their program back into compliance. If you have concerns about family day care or school-age programs, call: (607) 776 -2126 and your call will be transferred to the Manager of Child Care Assistance Program & Registration.

If you have concerns about licensed programs (Group Family Day Care or Centers), New York State Office of Children and Family Services (OCFS) maintains a toll-free complaint line regarding day care programs in NYS. Call (800) 732-5207, normal business hours: M – F, 8:30am – 5:00pm, and a staff person will take the information. The Office is required to investigate any possible violation of child care regulations.

If you think a program is operating without the proper license or registration certificate, this is also basis for making a complaint. Please call (607) 776-2126 and your call will be transferred to the Manager of Child Care Assistance Program & Registration.

Executive Updates:

On January 18, 2022, OCFS announced that they are partnering with local Child Care Resource and Referral (CCR&R) agencies to distribute more than 214,000 at-home COVID-19 test kits to licensed/registered child care programs.

The number of test kits provided was based on program modality:

Day Care Center: 22 test kits per program

School Age Child Care: 22 test kits per program

Group Family Day Care: 12 test kits per program

Family Day Care: 6 test kits per program

Steuben County delivered 1,624 among all modalities listed above.

On January 28, 2022, OCFS announced a grant opportunity for applicants interested in opening a new child care program called Invest in New York-Child Care Deserts Grant.

On March 1, 2022, Powdered Infant Formula Recall-FDA warns consumers not to use certain powdered infant formula produced in Abbott Nutrition's facility in Sturgis, Michigan. Abbott Nutrition initiated a voluntary recall of certain powder formulas (Similac, Alimentum, and Elecare) manufactured in the Sturgis, Michigan manufacturing facility due to consumer complaints of Cronobacter sakazakii and Salmonella Newport infections.

On June 2, 2022, OCFS shared updated guidance clarification on COVID-19 of some confusion surrounding one bullet of information that is included in the revised COVID-19 guidance issued on May 31, 2022.

The bullet in question reads:

- Pursuant to DOH guidance, those under 2 and those who cannot wear a well-fitted mask must continue to isolate as otherwise required outside of the child care setting for days 6-10.

This bullet is being interpreted by some to mean that children under two and those who are unable to tolerate a face covering must continue to quarantine/isolate for days 6-10 and are not allowed to return to their child care program. **This is not accurate.** These children may return to child care on days 6-10, as outlined in the guidance document.

On June 2, 2022, OCFS emailed to advise districts that OCFS has issued emergency regulations effective June 1, 2022. The emergency regulations can be found at this link:

<https://ocfs.ny.gov/main/legal/regulatory/er/>. **An Administrative Directive (ADM) outlining the regulations will be issued in the near future and a Local Commissioner Memorandum (LCM) will also be issued detailing new child care market rates.**

On October 19, 2022, the New York State Office of Children and Family Services (OCFS) announced the opportunity for eligible child care providers to apply for the Grant for Payment of Retroactive Absences. This announcement was posted on our website at ocfs.ny.gov/cc-rabsence. The 2022 Enacted Budget authorized OCFS to issue payments for absences to child care providers that served at least one child in receipt of child care assistance for care provided on or after April 1, 2020, and prior to December 1, 2021. This is a one-time grant opportunity for licensed, registered, and enrolled legally exempt providers who are currently open and in good standing

On November 14, 2022, OCFS issued a Dear Provider letter regarding respiratory virus infections such as COVID-19, seasonal influenza and respiratory syncytial virus (RSV). Governor Hochul launched a public awareness campaign warning of the triple threat posed by these respiratory illnesses. The letter provided important reminders on how to prevent and respond to illness in child care programs by handwashing, sanitizing, and completing daily health checks. For the most up to date information on respiratory virus infections visit: [DOH RSV](#).

Continuation of Career Pipeline

Begun in 2019, the Child Care Career Pipeline Project provides an opportunity to increase child care slots and enhance the quality of care provided to children in Steuben and Schuyler counties. The program also aimed to help individuals start-up their own business and establish a steady income. This initiative has been made possible through the following funding streams:

- Infant/Toddler
- Kay Hodge Memorial Fund
- Fund for Women
- United Way

In 2022, this initiative had shown to be successful, and was granted more funding for 2023. Continued funding will help individuals overcome the financial barriers of opening their own child care business.

Legally Exempt Services

On January 18, 2022, OCFS emailed Legally Exempt providers to inform them of Free at home COVID-19 tests that were available by visiting <https://www.covidtests.gov/>. In addition to the free COVID tests, the email shared a \$30/ month discount with the Federal Affordable Connectivity Program for eligible New Yorkers for internet. The email included information on finding vaccine clinics.

On January 28, 2022, OCFS announced a grant opportunity for applicants interested in opening a new child care program called Invest in New York-Child Care Deserts Grant.

On March 1, 2022, OCFS shared information on Powdered Infant Formula Recall-FDA warns consumers not to use certain powdered infant formula produced in Abbott Nutrition's facility in Sturgis, Michigan. Abbott Nutrition initiated a voluntary recall of certain powder formulas (Similac, Alimentum, and Elecare) manufactured in the Sturgis, Michigan manufacturing facility due to consumer complaints of Cronobacter sakazakii and Salmonella Newport infections.

On June 2, 2022, OCFS shared updated guidance clarification on COVID-19 of some confusion surrounding one bullet of information that was included in the revised COVID-19 guidance issued on May 31, 2022.

The bullet in question reads:

- Pursuant to DOH guidance, those under 2 and those who cannot wear a well-fitted mask must continue to isolate as otherwise required outside of the child care setting for days 6-10.

This bullet was being interpreted by some to mean that children under two and those who are unable to tolerate a face covering must continue to quarantine/isolate for days 6-10 and are not allowed to return to their child care program. **This was not accurate.** These children could return to child care on days 6-10, as outlined in the guidance document.

On June 2, 2022, OCFS emailed to advise districts that OCFS had issued emergency regulations effective June 1, 2022. The emergency regulations can be found at this link: <https://ocfs.ny.gov/main/legal/regulatory/er/>. **An Administrative Directive (ADM) outlining the**

regulations will be issued in the near future and a Local Commissioner Memorandum (LCM) will also be issued detailing new child care market rates.

On October 19, 2022, the New York State Office of Children and Family Services (OCFS) announced the opportunity for eligible child care providers to apply for the Grant for Payment of Retroactive Absences. This announcement was posted on our website at ocfs.ny.gov/cc-rabsence. The 2022 Enacted Budget authorized OCFS to issue payments for absences to child care providers that served at least one child in receipt of child care assistance for care provided on or after April 1, 2020, and prior to December 1, 2021. This was a one-time grant opportunity for licensed, registered, and enrolled legally exempt providers who were currently open and in good standing

Kids On Track Steuben Overview

Kids on Track Steuben is the Implementation Partnership in Steuben County advancing the goals of United Way of the Southern Tier Kids On Track initiative. The overarching goals of Kids On Track include school readiness, grade-level academic performance at 3rd grade, and successful high school completion. To advance these goals, the Kids On Track Implementation Partnership coordinates the efforts of multiple programs to achieve outcomes in the areas of **child development** and **safe, nurturing environments** for children. We have a Community of Practice that meets every other month to oversee the advancement of our key strategies to achieve these outcomes: universal home visiting, early detection and treatment for delays, creating contexts for healthy child development in all settings where children spend time, developing school-based family resource centers, adopting consistent behavior management approaches across settings, and spreading practices for effective teaching and learning across settings. Work done in Communities of Practice last year have yielded the following results:

- The Get Ready to GROW screenings program has been implemented in Steuben County. Since April of 2022, 294 children have had a health check and developmental screening through a community organization (Child Care Council, Head Start, or Family Resource Center.)
- We developed our second Summer Opportunity Guide to help families find enriching activities for their children during summer of 2022.
- Two youth programs received updates to their spaces through an Appalachian Regional Commission grant facilitated by Kids On Track.
- A video was produced to encourage maternity patients to consider and enroll in Home Visiting and Family Resource Centers.

Summary

Pro Action Child Care Council has issued this report for many years. Employers, child care providers, elected officials, economic development and other community leaders can and should use this report to plan for the vital economy and thriving society that are our shared goals. As Steuben and Schuyler Counties' most trusted child care resource, Pro Action Child Care Council is always ready to collect, compile and interpret data to assist decision makers, whether they are prospective child care programs, employers or elected officials. We continually keep our finger on the pulse of child care trends affecting parents, providers and employers.

This year's Child Care report shows a continued unmet need for Infant & Toddler care and School-aged care. Parents express a preference for center-based care, and many still seek options for non-traditional hours. Demand exceeds supply in our population centers of Bath, Corning-Painted Post and Hornell. Another unmet need is care for children with autism. These needs and preferences emerge consistently in our data, and are used to inform our work to expand child care supply and address challenges in access to child care.

As we predicted in last year's report, society has come to a turning point in recognizing the value of high quality child care for young children and school-aged children. Thankfully, public investment in child care is starting to reflect that recognition. There is more work to do, and our team continually keeps its focus on expanding access to high quality, affordable child care for all.

The tides of child care policy in the past year are shifting us ever closer to a cohesive early childhood system that supports the full potential of the caregiving profession and the children it serves. We look forward to seeing this potential become a reality evidenced by children developing in healthy ways, caregivers being properly compensated, and families feeling a healthy balance between work and child-rearing. It's within our grasp.
