Early Literacy Connections

Will the children in your program be ready for kindergarten? Research shows that children who receive structured, high quality learning experiences beginning at an early age are more ready to learn and begin school than children who lack these experiences. Pro Action Child Care Council has the tool you need to start children on their journey of learning! Early Literacy Connections© is a literacy-based curriculum created for multi-age settings.

Early Literacy Connections© is an easy to use curriculum with all the materials included! It is based on New York Learning Standards and aligns with the Head Start Child Outcomes Framework. All areas of child development from language and literacy to physical health and wellness are covered. Engaging activities supporting all levels of development for children in your program are included. To schedule this opportunity contact **LISA BARRETT**. Offered at no cost thanks to funding from United Way of the Southern Tier.
